**SECTION 5****FIREFIGHTING MEASURES****FIRE & EXPLOSION HAZARDS:**

**DANGER! HIGHLY FLAMMABLE LIQUID AND VAPOR.** Keep away from heat, lit cigarettes, sparks and open flame. Keep container closed.

**Extinguishing Method:** - CO<sup>2</sup>, Halon (if permitted), dry chemical, or foam.

**Firefighting Procedures:** This material is a Class IB flammable liquid. With fire exposure, this material will ignite readily and decompose to produce carbon oxides. Vapors of this material are heavier than air and may travel to a source of ignition and flash back to a open or leaking container. First responders should wear eye protection. Structural firefighters must wear SCBA and full protective equipment. Use a water spray or fog to reduce direct vapors. Water may not be effective in extinguishing a fire involved with this material.

**Hazardous Identification Number: 33 / HazChem Code: 3(Y) E**

**SECTION 6****ACCIDENTAL RELEASE MEASURES****SPILLS:**

Appropriate personal protective equipment must be worn before and individual(s) involved in a spill cleanup can proceed.

**Small Spills (< 1 gallon):** Appropriate personal protective equipment for small spill falls under caption rating - B (goggles and gloves).

Maximize the ventilation by opening doors and windows and insure that you secure all sources of possible ignition. Use absorbent material to remove spill and discard absorbent material into appropriate closed container for disposal. Dispose properly in accordance to local, state and federal regulations. Wash all spill affected areas and if applicable the outside of container with plenty of soap with lukewarm water. Remove any contaminated clothing and wash thoroughly before reuse.

**Large Spills (≥ 1 gallon):** Appropriate personal protective equipment for large spill falls under caption rating - H (goggles, gloves, apron,

vapor mask). Do not allow unprotected individuals to assist and/or in the immediate vicinity area of spill. Dike and contain the spill with inert material such as sand. Use only non-sparking tools for cleanup. Transfer liquid to containers for disposal. Gather all dike material for disposal and place in appropriate disposal containers. Dispose properly in accordance to local, state and federal regulations. Wash all spill affected areas. Remove any contaminated clothing and wash thoroughly before reuse. If applicable wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of the municipal sewers and open bodies (streams, lakes, etc) water.

SECTION 7		HANDLING AND STORAGE INFORMATION	
<b><u>WORK PRACTICES:</u></b>			
Use in a well ventilated location with appropriate exhaust ventilation and/or fans. Avoid prolonged contact and breathing vapors of this material. After use, wash hands and exposed skin with soap and water. Do not drink, eat or smoke while handling this material.			
<b><u>STORAGE &amp; HANDLING:</u></b>			
Keep material away from open flame, heat and sparks. Open containers slowly on a secure level surface. Keep container closed tightly when not in use. Empty containers may contain residual amounts of material, therefore empty containers should be handled with safety. Store containers in a cool, dry location, away from direct sunlight, other light sources and intense heat. Store away from incompatible materials (described in section 10)			
<b><u>SPECIAL PRECAUTIONS:</u></b>			
Open containers slowly on a secure level surface. Keep container closed tightly when not in use. Empty containers may contain residual amounts of material, therefore empty containers should be handled with safety.			
SECTION 8		EXPOSURE CONTROLS AND PERSONAL PROTECTION	
<b><u>VENTILATION &amp; ENGINEERING CONTROLS:</u></b>		<div>29 CFR 1910.134</div> <div></div> <div></div>	
When working with large quantities of this material, provide adequate ventilation (local exhaust ventilation, fans). Ensure that an eyewash station, washbasin or sink is available in the event of exposure to eyes.			
<b><u>RESPIRATORY PROTECTION:</u></b>			
No special respiratory protection is required under typical handling of material. In circumstances where vapors or sprays of this material are generated and respiratory protection is required, use only personal protection authorized by 29 CFR 1910.134, applicable U.S. State regulations or the Canadian CAS Standard Z94.4-03 and applicable standards of Canadian Provinces, EC member States, or Australia.			
<b><u>EYE PROTECTION:</u></b>			
Wear protective eyewear (safety glasses with side-shield) at all times when handling this material. Always use protective eyewear when cleaning spills. Contact lenses pose a hazard; soft contact lenses may absorb and concentrate irritants.			
<b><u>PROTECTION:</u></b>		<b><u>HAND</u></b>	
AVOID SKIN CONTACT DUE TO SENSITIZING POTENTIAL. Wear protective gloves if repeated or prolonged skin contact is anticipated during handling of the material. If handling for routine industrial use, it is necessary to refer to U.S. OSHA 29 CFR 1910.138 for the appropriate standards of Canada, of the EC member states.
